# EDR BUILDING PERMIT REPORT

## About This Report

The EDR Building Permit Report provides a practical and efficient method to search building department records for indications of environmental conditions. Generated via a search of municipal building permit records gathered from more than 1,600 cities nationwide, this report will assist you in meeting the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

Building permit data can be used to identify current and/or former operations and structures/features of environmental concern. The data can provide information on a target property and adjoining properties such as the presence of underground storage tanks, pump islands, sumps, drywells, etc., as well as information regarding water, sewer, natural gas, electrical connection dates, and current/former septic tanks.

## ASTM and EPA Requirements

ASTM E 1527-13 lists building department records as a "standard historical source," as detailed in § 8.3.4.7: "Building Department Records - The term building department records means those records of the local government in which the property is located indicating permission of the local government to construct, alter, or demolish improvements on the property." ASTM also states that "Uses in the area surrounding the property shall be identified in the report, but this task is required only to the extent that this information is revealed in the course of researching the property itself."

EPA's Standards and Practices for All Appropriate Inquires (AAI) states: "§312.24: Reviews of historical sources of information. (a) Historical documents and records must be reviewed for the purposes of achieving the objectives and performance factors of §312.20(e) and (f). Historical documents and records may include, but are not limited to, aerial photographs, fire insurance maps, building department records, chain of title documents, and land use records."

## Methodology

EDR has developed the EDR Building Permit Report through our partnership with BuildFax, the nation's largest repository of building department records. BuildFax collects, updates, and manages building department records from local municipal governments. The database now includes 30 million permits, on more than 10 million properties across 1,600 cities in the United States.

The EDR Building Permit Report comprises local municipal building permit records, gathered directly from local jurisdictions, including both target property and adjoining properties. Years of coverage vary by municipality. Data reported includes (where available): date of permit, permit type, permit number, status, valuation, contractor company, contractor name, and description.

Incoming permit data is checked at seven stages in a regimented quality control process, from initial data source interview, to data preparation, through final auditing. To ensure the building department is accurate, each of the seven quality control stages contains, on average, 15 additional quality checks, resulting in a process of approximately 105 quality control "touch points."

For more information about the EDR Building Permit Report, please contact your EDR Account Executive at (800) 352-0050.

## EXECUTIVE SUMMARY: SEARCH DOCUMENTATION

A search of building department records was conducted by Environmental Data Resources, Inc (EDR) on behalf of Petralogix on Apr 23, 2019.

### TARGET PROPERTY

Corner of Westlake Drive and Regatta Lane  
Stockton, CA 95219

### SEARCH METHODS

EDR searches available lists for both the Target Property and Surrounding Properties.

### RESEARCH SUMMARY

Building permits identified: **YES**

The following research sources were consulted in the preparation of this report. An "X" indicates where information was identified in the source and provided in this report.

## ADJOINING PROPERTY FINDINGS

### ADJOINING PROPERTY DETAIL

The following Adjoining Property addresses were researched for this report. Detailed findings are provided for each address.

#### BEACON PORT WAY

##### 5941 BEACON PORT WAY

Date: **4/20/2018**  
Permit Type:  
Description: **AA: Change-out installation of Gas - 040 gallon to Gas - 040 gallon, located inside building, screening not required. \*\*\*Valuation under \$1000k\*\*\***

Permit Description: **OTC - Water Heater**  
Work Class:  
Proposed Use:  
Permit Number: 1800003490  
Status: Issued  
Valuation: \$1,340.00  
Contractor Company:  
Contractor Name: LEE'S HEATING AND AIR CONDITIONING CO

Date: **10/19/2007**  
Permit Type: **SP**  
Description: **SWAN POOLS 639641 33108 STATE COMP INS 20108 5209 123107 C53 INGROUND GUNITE SWIMMING POOL 400 SQFT.**

Permit Description: **PRIVATE SWIMMING POOL-----2L**  
Work Class: SWIMMING POOLS, SPAS & HOT TUBS - RES  
Proposed Use: SWIMMING POOL  
Permit Number: 0700005337  
Status: CLOSED  
Valuation: \$25,820.00  
Contractor Company:  
Contractor Name: SWAN POOLS AKA TR WILLARD INC

## ADJOINING PROPERTY FINDINGS

Date: 3/20/2007  
Permit Type: MP  
Description: Pulte Homes 517593 93007 OLD REPUBLIC 110106 06-84379 123106 REPLACE ALL HAZARDOUS, RAISED OR BROKEN CURB, GUTTER AND SIDEWALK. ENCROACHMENT PERMIT REQUIRED FOR ANY WORK IN CITY RIGHT-OF-WAY. NEW SFD; MP-2 EHANCED ELEVATION (2082) 4-BED/2.5-BATH/2-CAR GARAGE AT PARADISE VILLAGE/SPANOS PARK GRANUCCI PROPERTY SUBDIVISION

Permit Description: MASTERED PLAN-----2L  
Work Class: NEW RES-ONE FAMILY STRUCTURES, NEW CONSTRUCTION  
Proposed Use: ONE FAMILY STRUCTURES  
Permit Number: 0700001206  
Status: CLOSED  
Valuation: \$293,479.00  
Contractor Company:  
Contractor Name: GARY KOBAYASHI

Contractor Name: GARY KOBAYASHI

## GLOSSARY

### General Building Department concepts

- **ICC:** The International Code Council. The governing body for the building/development codes used by all jurisdictions who've adopted the ICC guidelines. MOST of the US has done this. Canada, Mexico, and other countries use ICC codes books and guides as well. There are a few states who have added guidelines to the ICC codes to better fit their needs. For example, California has added seismic retrofit requirements for most commercial structures.
- **Building Department (Permitting Authority, Building Codes, Inspections Department, Building and Inspections):** This is the department in a jurisdiction where an owner or contractor goes to obtain permits and inspections for building, tearing down, remodeling, adding to, re-roofing, moving or otherwise making changes to any structure, Residential or Commercial.
- **Jurisdiction:** This is the geographic area representing the properties over which a Permitting Authority has responsibility.
- **GC:** General Contractor. Usually the primary contractor hired for any Residential or Commercial construction work.
- **Sub:** Subordinate contracting companies or subcontractors. Usually a "trades" contractor working for the GC. These contractors generally have an area of expertise in which they are licensed like Plumbing, Electrical, Heating and Air systems, Gas Systems, Pools etc. (called "trades").
- **Journeyman:** Sub contractors who have their own personal licenses in one or more trades and work for different contracting companies, wherever they are needed or there is work.
- **HVAC (Mechanical, Heating & Air companies):** HVAC = Heating, Ventilation, and Air Conditioning.
- **ELEC (Electrical, TempPole, TPole, TPower, Temporary Power, Panel, AMP Change, Power Release):** Electrical permits can be pulled for many reasons. The most common reason is to increase the AMPs of power in an electrical power panel. This requires a permit in almost every jurisdiction. Other commons reason for Electrical permits is to insert a temporary power pole at a new construction site. Construction requires electricity, and in a new development, power has yet to be run to the lot. The temporary power pole is usually the very first permit pulled for new development. The power is released to the home owner when construction is complete and this sometimes takes the form of a Power Release permit or inspection.
- **"Pull" a permit:** To obtain and pay for a building permit.
- **CBO:** Chief Building Official
- **Planning Department:** The department in the development process where the building /structural plans are reviewed for their completeness and compliance with building codes
- **Zoning Department:** The department in the development process where the site plans are reviewed for their compliance with the regulations associated with the zoning district in which they are situated.
- **Zoning District:** A pre-determined geographic boundary within a jurisdiction where certain types of structures are permitted / prohibited. Examples are Residential structure, Commercial/Retail structures, Industrial/Manufacturing structures etc. Each zoning district has regulations associated with it like the sizes of the lots, the density of the structures on the lots, the number of parking spaces required for certain types of structures on the lots etc.
- **PIN (TMS, GIS ID, Parcel#):** Property Identification Number and Tax Map System number.
- **State Card (Business license):** A license card issued to a contractor to conduct business.
- **Building Inspector (Inspector):** The inspector is a building department employee that inspects building construction for compliance to codes.
- **C.O.:** Certificate of Occupancy. This is the end of the construction process and designates that the owners now have permission to occupy a structure after its building is complete. Sometimes also referred to as a Certificate of Compliance.

## GLOSSARY

### Permit Content Definitions

- Permit Number: The alphanumerical designation assigned to a permit for tracking within the building department system. Sometimes the permit number gives clues to its role, e.g. a "PL" prefix may designate a plumbing permit.
- Description: A field on the permit form that allows the building department to give a brief description of the work being done. More often than not, this is the most important field for EP's to find clues to the prior use(s) of the property.
- Permit Type: Generally a brief designation of the type of job being done. For example BLDG-RES, BLDG-COM, ELEC, MECH etc.

### Sample Building Permit Data

Date: Nov 09, 2000

Permit Type: Bldg -

New Permit Number: 101000000405

Status: Valuation: \$1,000,000.00

Contractor Company: OWNER-BUILDER

Contractor Name:

Description: New one store retail (SAV-ON) with drive-thru pharmacy. Certificate of Occupancy.

## EXECUTIVE SUMMARY

### DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1906 through 2014. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

### RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

# EDR Environmental Lien and AUL Search

## EDR Environmental Lien and AUL Search

The EDR Environmental Lien and AUL Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

***Thank you for your business.***

Please contact EDR at 1-800-352-0050  
with any questions or comments.

# The EDR Property Tax Map Report

## EDR Property Tax Map Report

Environmental Data Resources, Inc.'s EDR Property Tax Map Report is designed to assist environmental professionals in evaluating potential environmental conditions on a target property by understanding property boundaries and other characteristics. The report includes a search of available property tax maps, which include information on boundaries for the target property and neighboring properties, addresses, parcel identification numbers, as well as other data typically used in property location and identification.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Petralogix were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting [www.edrnet.com/sanborn](http://www.edrnet.com/sanborn).

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

### UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

Sanborn® Library search results

Certification #: 7F10-42C6-84A2

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- Library of Congress
- University Publications of America
- EDR Private Collection

*The Sanborn Library LLC Since 1866™*

### Limited Permission To Make Copies

Petralogix (the client) is permitted to make up to FIVE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

## **APPENDIX F**

## PHASE I ENVIRONMENTAL SITE ASSESSMENT - USER QUESTIONNAIRE

ASSESSOR PARCEL NUMBER(S):

066-050-070-000 & 066-050-080-000

STOCKTON, CALIFORNIA

Petralogix Engineering, Inc. is preparing a Phase I Environmental Site Assessment (Phase I ESA) for the above referenced property in order to assess the potential of onsite items which may be considered as Recognized Environmental Condition or Concern (RECs).

A Recognized Environmental Condition or Concern (REC) is one of the terms used to identify environmental liability within the context of a Phase I Environmental Site Assessment. ASTM defines the recognized environmental condition in the E1527-13 standard as "the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment". De minimis conditions are not recognized environmental conditions.

We ask that you complete the following questionnaire and email it to [tscheftner@petralogix.com](mailto:tscheftner@petralogix.com). We will include this in the Phase I ESA report as an appendix. We appreciate your time and encourage you to call us at 209-770-0731 with any questions about this or any of the items contained with this document.

### REQUIRED QUESTIONS

Please provide the following information to our firm in order to qualify for the Landowner Liability Protections (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "Brownfields Amendments"). Failure to provide this information could result in a determination that "all appropriate inquiry" was not completed. Any information that is falsely recorded, or knowingly is wrong, could also lead to an incomplete defense. For this reason, if an area is unclear or if there is a possibility that further clarification could be presented by another person, then call our firm at 209-770-0731 to discuss.

1. Environmental cleanup liens that are filed or recorded against the site (40 CFR 312.25). Yes No

Are you aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state or local law?    
*(If yes, please discuss and attach any relevant documentation that may aid in determine the extent of this question.)*

2. Activity and land use limitations that are in place on the site or that have been filed or recorded in a registry (40 CFR 312.26). Yes No

Are you aware of any AULs, such as engineering controls, land use restrictions or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law?    
*(If yes, please discuss and attach relevant documentation.)*

3. Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28). Yes No

As the user of this Environmental Site Assessment do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?    
*(If yes, please discuss and attach relevant documentation.)*

4. Relationship of the purchase price to the fair market value of the property if it were not contaminated (40 CFR 312.29). Yes No N/A

a. Does the purchase price being paid for this property reasonably reflect the fair market value of the property?

Yes No N/A

- b. If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?
- (If yes, please discuss and attach relevant documentation, if any.)*

5. Commonly known or reasonably ascertainable information about the property (40 CFR 312.30).

Yes No

Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases?

For example, as user,

- a. Do you know the past uses of the property?
- (If yes, please discuss and attach relevant documentation, if any.)*

- b. Do you know of specific chemicals that are present or once were present at the property?
- (If yes, please discuss and attach relevant documentation, if any.)*

- c. Do you know of spills or other chemical releases that have taken place at the property?

- d. Do you know of any environmental cleanups that have taken place at the property?

6. The degree of obviousness of the presence or likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31).

Yes No

As the user of this ESA, based on your knowledge and experience related to the property, are there any obvious indicators that point to the presence or likely presence of contamination at the property?

ADDITIONAL QUESTIONS

The following additional questions will assist the environmental professional in preparation of the Phase I ESA report.

1. Why have you requested this Phase I ESA?

- To qualify for Landowner Liability Protection
- Other Reason (please specify) CPC requirement

2. What is your relationship to the subject property?

- Buyer       Lender
- Seller       Other \_\_\_\_\_

3. a. What type is the subject property?

- Commercial     Agricultural     Vacant
- Residential     Industrial       Other \_\_\_\_\_

b. What type of transaction is involved?

Cash

4. Provide the complete and correct address of the property (if not indicated on page 1).

5. Are you aware of any former addresses or previous assessor's parcel numbers (APNs) for the subject property? Include previous addresses/APNs even if subject property was split from a larger parcel. (If yes, please discuss.)

Yes  No  (ND)  
Karen?

6. Do you have any other knowledge or experience with the property that may be pertinent to this investigation (for example, copies of previous environmental assessments, correspondence, etc. concerning the property and its environmental condition)? (If yes, please discuss and attach relevant documentation, if any.)

7. What is the proposed future use of the subject property?

Elementary School

8. Identify all additional parties who will rely on the Phase I ESA report (if any).

Lodi Unified School District

9. Identify the site contact and how the contact can be reached.

PHASE I ENVIRONMENTAL SITE ASSESSMENT -  
OWNER/KEY SITE MANAGER QUESTIONNAIRE  
ASSESSOR PARCEL NUMBER(S):  
066-050-070-000 & 066-050-080-000  
STOCKTON, CALIFORNIA

At the request of Lodi Unified School District, Petralogix Engineering, Inc. is preparing a Phase I Environmental Site Assessment (Phase I ESA) for the above referenced property. Since you are the owner of the property, we ask that you designate someone as the key site manager or "person with the most knowledge of the property" to complete this form. Alternatively, you as the owner can complete it yourself considering that you are the most knowledgeable person. The designated person should complete the following questionnaire and email it to [tscheftner@petralogix.com](mailto:tscheftner@petralogix.com). If you have any questions about this do not hesitate to call us at 209-770-0731.

**GENERAL INFORMATION**

1. Current property owner:

Spanos \_\_\_\_\_

Name \_\_\_\_\_

10100 Trinity Parkway #5, Stockton CA 95219 \_\_\_\_\_

Address \_\_\_\_\_

Telephone \_\_\_\_\_

2015 \_\_\_\_\_

Year purchased \_\_\_\_\_

2. Previous property owner(s) and contact information (if this is not known please explain why):

Name: Unknown  
Address: Farm land  
Telephone:  
Year purchased:

3. Any other person(s) with historical knowledge of property (if known):

Name: Karen Garrett  
Address: Spanos Corporation  
Telephone: 209 955-2574  
Relationship to property: Development Manager

4. Please describe current use(s) of property to your best ability (more detail is better which specifies factors about the property's impact form use: Former farm land

Being prepped for development

5. Please describe any other known past use(s) of property, and approximate dates of each use: N/A

6. Please describe any other relevant historical information in your possession concerning the subject property. N/A

7. Are you aware of any former addresses or previous assessor's parcel numbers (APNs) for the subject property? Include previous addresses/APNs even if subject property was split from a larger parcel. (If yes, please discuss.)

Yes  No

was a big parcel split into villages for development

8. Are there any businesses using any portion of the property which are operated by an entity other than the property owner (including a tenant farming operation)? If yes, please provide contact name and phone number for each:  Yes  No

9. To the best of your knowledge has the property ever been used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility?  Yes  No

10. To the best of your knowledge has any adjoining property ever been used as a gasoline station, motor repair facility, commercial printing facility, dry cleaners, photo developing laboratory, junkyard or landfill, or as a waste treatment, storage, disposal, processing, or recycling facility?  Yes  No

11. Do you have any knowledge of the past or current existence of hazardous substances or petroleum products with respect to the property or any facility located on the property?  Yes  No

12. Are there any electrical transformers or capacitors on the property which are known to contain PCBs (polychlorinated biphenyls), or which may have been manufactured before 1980 and whose PCB content is unknown?  Yes  No

13. Water is provided to the property by:  
 A Well  Irrigation District  
 Public Water System  None Available

Approximate age of system:

14. Wastewater disposal is provided to the property by:  
 On-Site Septic System  None Available  
 Public Sewer System

Approximate age of system:

15. Are there any wastewaters generated and/or disposed of on the property other than storm water runoff and domestic sewage? Please describe. (Please attach copies of any wastewater discharge permits or licenses pertaining to operations on the property.)  Yes  No

16. Are there any other types of liquid wastes or solid wastes generated at the property? Please describe how they are handled and disposed of. (Please attach copies of any waste disposal permits or licenses pertaining to operations on the property.)  Yes  No

17. Are there any activities on the property which generate air pollutants, including fuel burning equipment? Please describe. (Please attach copies of any air permits or licenses pertaining to operations on the property.)

STRUCTURES

Yes No

1. Are there currently any structures on the property?

*For each existing building, please provide type of building and date of original construction and any substantial renovations:*

2. To the best of your knowledge, have there been any structures on the property in the past which have since been removed?

*For each building known to have been removed, please provide type of building and approximate dates the building existed:*

3. How are the structures heated and cooled (e.g., central, wall-mounted unit, space heaters, etc.), and what powers the heating and cooling devices (e.g., electric, propane, fuel oil tank, fireplace, etc.)? N/A

4. Are there any currently, or the best of your knowledge have there been previously, any flooring, drains, or walls located within the facility that are stained by substances other than water or are emitting foul odors?

6. If any buildings were constructed prior to 1980, is there any currently or was there previously lead-based paint applied to the building(s)?

- a. If so, has a survey been conducted to assess the type, amount, location and condition of lead-based paint? (Please attach a copy of any survey report.)

STORAGE TANKS AND OTHER CHEMICAL STORAGE

1. Are there currently, or to the best of your knowledge have there been previously, any registered or unregistered gasoline, diesel, fuel oil or other chemical storage tanks (above or underground) located on the property?  ?  NO

2. Are there any pesticides, paints, or other chemicals stored or used on the property in drums, sacks, or other containers greater than 5 gallons each or 50 gallons in the aggregate?  ?  NO

3. If the answer to either question is "yes," please answer the questions below: N/A

a. For each tank, please list substance stored and tank capacity: Yes No

b. Have the tanks been inspected or tested for leakage? When was the most recent test? What were the results? (Please attach copies of results if available.)

c. For other storage containers, please describe the substances, quantities stored, and types of containers.

e. Please attach copies of any permits or licenses pertaining to the use, storage, handling, or disposal of chemicals on the property.

4. Have there been any spills, leaks, or other releases of chemicals on the property? If so, please describe the chemicals and quantities released, any cleanup measures taken, and the results of any soil or groundwater samples performed to detect the presence of chemicals spilled, leaked, or released on the property.

INDUSTRIAL PROPERTIES

1. Is the property currently used for any industrial purpose?

2. Has the property ever been previous used for an industrial purpose (other than the current use)?

3. If the answer to either question is "yes," please answer the following:

- a. Has the property been used for disposal of any liquid or solid waste?  Yes  No
- b. Have evaporation or storage ponds been located on the property?  Yes  No
- c. Have wastewater treatment facilities, such as acid neutralization vaults, been located on the property?  Yes  No
- d. Are there raw chemical or waste chemical storage areas on the property?  Yes  No

*If any of questions 3.a-d are answered "yes," please provide a description, including the location of all disposal sites, treatment facilities and storage areas, the type of chemicals or wastes handled at each site, the results of any soil or groundwater samples taken in the vicinity of each site, and the manner in which each site not presently in use was closed.*

**AGRICULTURAL PROPERTIES**

- |   | Yes                                 | No                       |
|---|-------------------------------------|--------------------------|
| 1. Is the property currently used for agricultural purposes, other than grazing or pasture land?  | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 2. To the best of your knowledge, has the property been used in the past for agricultural purposes, other than grazing or pasture land? | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| 3. If the answer to either question is "yes," please answer the following:  |                                     |                          |

- a. Have pesticides, herbicides or other agricultural chemicals been applied to the property? If so, please describe the locations where such pesticides, herbicides or chemicals were applied, and the type of pesticides, herbicides or chemicals applied in each area. *(Please attach copies of pesticide use reports if available.)*

Yes
  No
 

*probably do not know what types*
- b. Have pesticides, herbicides or other agricultural chemicals been mixed, formulated, rinsed, or disposed of on the property? *If so, please describe the locations where such pesticides, herbicides or chemicals were mixed, formulated, rinsed, or disposed, and the type of pesticides, herbicides or chemicals mixed, formulated, rinsed or disposed of at each location.*

Yes
  No
 

*>*

c. Has any soil or groundwater analysis been performed to detect pesticides, herbicides or chemicals used at the site? *If so, please provide a summary of the findings or attach the report(s).*

Karen?  
 Yes  No

DOCUMENTS/PROCEEDINGS

1. Available Documents

Are you aware of the existence of any of the following documents for the subject property? *If so, please indicate whether you can provide copies of those documents to this office within reasonable time and cost constraints.*

	Yes	No	Copies to be provided?
a. Environmental site assessment reports	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/> <i>Yes</i>
b. Environment compliance audit reports	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c. Environmental permits (for example, solid waste disposal permits, hazardous waste disposal permits, wastewater permits, NPDES permits, underground injection permits)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
d. Registrations for underground and above-ground storage tanks	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
	Yes	No	Copies to be provided?

 License #: 3900053  
 Expiration: 12/31/2015

**Type of Use:** Agricultural Use

**Pesticide Possession:** Possession and Use

**Permit Duration:** Seasonal

*Employees Handle Pesticides*

**Permit Conditions:** A, P, Q, B

Notices Of Intent required 24 hours prior to application of pesticide containing restricted materials

See condition detail for code descriptions.

**Regulatory Notes:**

I understand that this permit does not relieve me from liability for any damages to any persons or property caused by the use of these pesticides. I waive any claims of liability for damages against the County Department of Agriculture based on the issuance of this permit. I further understand that this permit may be revoked when pesticides are used in conflict with the manufacturer's labeling or in violation of applicable laws, regulations, and specific conditions of this permit. I authorize inspection at all reasonable times and whenever an emergency exists by the Department of Pesticide Regulation or the County Department of Agriculture of all areas treated or to be treated, storage facilities for pesticides or emptied containers and equipment used or to be used in the treatment. I have considered alternative and mitigation measures pursuant to Title 3, California Code of Regulations, section 6426. Taking into account economic, environmental, social, and technological factors, I have adopted those that are feasible and would substantially lessen any significant adverse impact on the environment.

## GROUNDWATER PROTECTION PERMIT CONDITIONS

These conditions apply to pesticides labeled for agricultural, outdoor industrial, or outdoor institutional use that contain chemicals listed in 3CCR section 6800(a): ATRAZINE, SIMAZINE, BROMACIL, DIURON (except products with less than 7% diuron applied to foliage), PROMETON, BENTAZON, AND NORFLURAZON. Ground Water Protection Areas (GWPA), for San Joaquin County, are designated in the Department of Pesticide Regulation document EH03-05. A list of GWPAs may be obtained from the Commissioner's Office or DPR's website ([www.cdpr.ca.gov/docs/gwp](http://www.cdpr.ca.gov/docs/gwp)).

"Engineered rights of way" are defined as areas within a ground water protection area (GWPA) that are constructed in a way that results in increased runoff and collection of storm water, such as railroad ballasts and berms, public roadsides, and highway median strips or similar areas, but not canal or ditch banks or utility lines.

## SPECIFIC GROUNDWATER PROTECTION PERMIT CONDITIONS ATTACHED

## GWP-C &amp; D Unlined canal and ditch banks

- 1 - Percolation rate is less than or equal to 0.2 inches per hour
- 2 - Applied six months prior to water run
- 3 - All applications are prohibited below high water line

## GWP-ROW Engineered rights-of-way within San Joaquin County GWPAs

- 1A - Soil disturbance within 7 days
- 1B - Incorporation
- 1C - Applied between April 1 and July 31
- 2 - Runoff passes through adjacent fully vegetated noncrop area
- 3 - Compliance with NPDES permit
- 4 - Runoff through adjacent area as overland flow

## GWP-R Runoff GWPAs within San Joaquin County

- 1 - Soil disturbance
- 2 - Incorporated
- 3 - Band treatment
- 4 - Applied between April 1 and July 31
- 5 - Runoff water held onsite
- 6 - Runoff water stored offsite
- 7 - Runoff to adjacent fallow field

## GWP-L Leaching GWPAs within San Joaquin County

- 1 - No irrigation
- 2 - Bed or berm application
- 3 - Managed irrigation

## GWP-Director Director Approved Alternative Management Practices or Interim Use

- 1 - Director approved alternative
- 2 - Director approved interim use

**Permit Conditions:** A, P, Q, O, B

Notices Of Intent required 24 hours  
prior to application of pesticide  
containing restricted materials

See condition detail for  
code descriptions.

**Regulatory Notes:**

I understand that this permit does not relieve me from liability for any damages to any persons or property caused by the use of these pesticides. I waive any claims of liability for damages against the County Department of Agriculture based on the issuance of this permit. I further understand that this permit may be revoked when pesticides are used in conflict with the manufacturer's labeling or in violation of applicable laws, regulations, and specific conditions of this permit. I authorize inspection at all reasonable times and whenever an emergency exists by the Department of Pesticide Regulation or the County Department of Agriculture of all areas treated or to be treated, storage facilities for pesticides or emptied containers and equipment used or to be used in the treatment. I have considered alternative and mitigation measures pursuant to Title 3, California Code of Regulations, section 6426. Taking into account economic, environmental, social, and technological factors, I have adopted those that are feasible and would substantially lessen any significant adverse impact on the environment.

Revised 11/11

P **General**

CONDITION - P - General

In addition to all applicable laws, regulations, label restrictions and other more restrictive conditions of this permit, THE FOLLOWING CONDITIONS APPLY TO APPLICATIONS COVERED BY THIS PERMIT.

1. Maximum wind velocities for applications of Restricted Materials unless otherwise covered by the label, law, regulation, other permit conditions or environmental conditions at the application site are:
  - a. Spray - 12 m.p.h.
  - b. Dust - 8 m.p.h.
  - c. Pellets, granular or baits - 16 m.p.h.
2. No pesticide application shall be made or continued when there is the likelihood of contaminating any persons, non-target crops, animals or other public or private property.
3. Unless specifically named as a dust on this permit, NO DUST FORMULATIONS are allowed.
4. Apply pesticides covered by SLN(s) and Section 18(s) in conformance with the SLN(s) and Section 18(s).
5. A flagger is required at the application site for all AIR applications of Zinc Phosphide bait.

Revised 10/90

**Q Dicamba & Phenoxy Herbicide CV**  
CONDITION - Q - DICAMBA AND PHENOXY HERBICIDES - CENTRAL VALLEY/HAZARDOUS AREA

---

In addition to all applicable laws, regulations and label restrictions, the CONDITIONS CHECKED BELOW APPLY to applications covered by this permit.

- 1. No ester formulation applications allowed.
- 2. A smoke column is required at the application site for all Phenoxy and Dicamba applications by aircraft beginning March 16 and continuing through October 15.
- 3. Do not discharge material more than 10 feet above the crop or target.
- 4. A drift reducing agent shall be added to the spray mixture at label rates.
- 5. Maximum wind velocity for Phenoxy herbicides - 10 m.p.h.
- 6. Maximum wind velocity for Dicamba - 10 m.p.h. EXCEPT when wind is moving in direction of sensitive crops, the maximum wind velocity - 5 m.p.h.
- 7. No Dicamba application allowed in the vicinity of sensitive crops when the maximum temperature on the day of application is predicted to exceed 85 degrees fahrenheit. Predicted temperature for the following day will be determined by the NOAA - National Weather Service.
- 8. Dicamba applications by aircraft are restricted to a minimum distance of 2 miles from the following susceptible crops: beans, grapes, sunflower, tomato, safflower, curcurbits, potatoes.
- 9. Dicamba applications by ground are restricted to a minimum distance of 20 feet from the following susceptible crops: beans, safflower, tomato, curcurbits, potatoes and 1/4 mile from grapes and sunflowers.
- 10. No Dicamba or Phenoxy herbicide applications allowed beginning March 16 and continuing through October 15, and until grape leaves in the vicinity of the treated area are "browned off".

Revised 10/90

**O Aluminum & Magnesium Phosphide**

**Use in Rodent Burrow Fumigations**

These use conditions are based on a determination by the California Department of Pesticide Regulation that exposure to phosphine fumigants is a risk to public safety.

1. Use is strictly prohibited around all residential areas, including single and multi-family residential properties, nursing homes, schools (except athletic fields where use may continue), day care facilities, and hospitals.
2. The products must only be used outdoors for control of burrowing pests, and are for use only on agricultural areas, orchards, non-crop areas (such as pasture and rangeland), golf courses, athletic fields, parks and recreational areas, cemeteries, airports, rights-of-way, earthen dams, and other non-residential institutional or industrial sites.
3. Products must not be applied in a burrow system that is within 100 feet of a building that is or may be occupied by people or domestic animals. This buffer zone for treatment around non-residential buildings that could be occupied by people or animals has been increased from 15 feet to 100 feet.
4. When this product is used in athletic fields or parks, the applicator must post a sign at entrances to the treated site containing the signal word DANGER/PELIGRO, skull and crossbones, the words: DO NOT ENTER/NO ENTRE, FIELD NOT FOR USE, the name and EPA registration number of the fumigant, and a 24-hour emergency response number. Signs may be removed 2 days after the final treatment.
5. When this product is used out-of-doors in a site frequented by people, other than an athletic field or park, the applicator shall post a sign at the application site containing the signal word DANGER/PELIGRO, skull and crossbones, the name and EPA registration number of the fumigant, and a 24-hour emergency response number. Signs may be removed 2 days after the final treatment.
6. Fumigant Management Plans must be written before all applications of phosphine products, including all burrowing pest fumigations. A Fumigant Management Plan is a written description of the steps designed to plan for a safe, legal and effective fumigation. The certified applicator and owner of the property to be fumigated must characterize the area to be treated and include all safety requirements in the plan before application.

**B RM Use Near Schools**

**RESTRICTED MATERIALS USE NEAR SCHOOLS**

No applications of Restricted Materials shall be made by air or ground within 660 feet of a school in session or when a school sponsored event is in progress. If the pesticide label or regulation requires a larger buffer area, the larger buffer shall apply. There will be no waiver of the required 24 hour Notice of Intent.

These conditions do not apply to the following ground applications:

1. Vertebrate pest control
2. Back-pack applications
3. Equipment where all nozzles are pointing down AND wind direction is periodically measured as moving away from the school site
4. Other CAC approved methods

NOTE: The uses of soil fumigants and their corresponding buffer zones are covered by DPR suggested permit conditions or by label.

---

The certified applicator and owner of the property to be fumigated must characterize the area to be treated and include all safety requirements in the plan before application.

## **P General**

### **CONDITION - P - General**

In addition to all applicable laws, regulations, label restrictions and other more restrictive conditions of this permit, THE FOLLOWING CONDITIONS APPLY TO APPLICATIONS COVERED BY THIS PERMIT.

1. Maximum wind velocities for applications of Restricted Materials unless otherwise covered by the label, law, regulation, other permit conditions or environmental conditions at the application site are:
  - a. Spray - 12 m.p.h.
  - b. Dust - 8 m.p.h.
  - c. Pellets, granular or baits - 16 m.p.h.
2. No pesticide application shall be made or continued when there is the likelihood of contaminating any persons, non-target crops, animals or other public or private property.
3. Unless specifically named as a dust on this permit, NO DUST FORMULATIONS are allowed.
4. Apply pesticides covered by SLN(s) and Section 18(s) in conformance with the SLN(s) and Section 18(s).

5. A flagger is required at the application site for all AIR applications of Zinc Phosphide bait.

Revised 10/90

**Q Dicamba & Phenoxy Herbicide CV**

CONDITION - Q - DICAMBA AND PHENOXY HERBICIDES - CENTRAL VALLEY/HAZARDOUS AREA

---

In addition to all applicable laws, regulations and label restrictions, the CONDITIONS CHECKED BELOW APPLY to applications covered by this permit.

- 1. No ester formulation applications allowed.
- 2. A smoke column is required at the application site for all Phenoxy and Dicamba applications by aircraft beginning March 16 and continuing through October 15.
- 3. Do not discharge material more than 10 feet above the crop or target.
- 4. A drift reducing agent shall be added to the spray mixture at label rates.
- 5. Maximum wind velocity for Phenoxy herbicides - 10 m.p.h.
- 6. Maximum wind velocity for Dicamba - 10 m.p.h. EXCEPT when wind is moving in direction of sensitive crops, the maximum wind velocity - 5 m.p.h.
- 7. No Dicamba application allowed in the vicinity of sensitive crops when the maximum temperature on the day of application is predicted to exceed 85 degrees fahrenheit. Predicted temperature for the following day will be determined by the NOAA - National Weather Service.
- 8. Dicamba applications by aircraft are restricted to a minimum distance of 2 miles from the following susceptible crops: beans, grapes, sunflower, tomato, safflower, curcurbits, potatoes.
- 9. Dicamba applications by ground are restricted to a minimum distance of 20 feet from the following susceptible crops: beans, safflower, tomato, curcurbits, potatoes and 1/4 mile from grapes and sunflowers.
- 10. No Dicamba or Phenoxy herbicide applications allowed beginning March 16 and continuing through October 15, and until grape leaves in the vicinity of the treated area are "browned off".

License #: 3900053

Expiration: 12/31/2018

Notices Of Intent required 24 hours prior to application of pesticide containing restricted materials

See condition detail for code descriptions.

**Regulatory Notes:**

I understand that this permit does not relieve me from liability for any damages to any persons or property caused by the use of these pesticides. I waive any claims of liability for damages against the County Department of Agriculture based on the issuance of this permit. I further understand that this permit may be revoked when pesticides are used in conflict with the manufacturer's labeling or in violation of applicable laws, regulations, and specific conditions of this permit. I authorize inspection at all reasonable times and whenever an emergency exists by the Department of Pesticide Regulation or the County Department of Agriculture of all areas treated or to be treated, storage facilities for pesticides or emptied containers and equipment used or to be used in the treatment. I have considered alternative and mitigation measures pursuant to Title 3, California Code of Regulations, section 6426. Taking into account economic, environmental, social, and technological factors, I have adopted those that are feasible and would substantially lessen any significant adverse impact on the environment.

## GROUNDWATER PROTECTION PERMIT CONDITIONS

These conditions apply to pesticides labeled for agricultural, outdoor industrial, or outdoor institutional use that contain chemicals listed in 3CCR section 6800(a): ATRAZINE, SIMAZINE, BROMACIL, DIURON (except products with less than 7% diuron applied to foliage), PROMETON, BENTAZON, AND NORFLURAZON. Ground Water Protection Areas (GWPA), for San Joaquin County, are designated in the Department of Pesticide Regulation document EH03-05. A list of GWPAs may be obtained from the Commissioner's Office or DPR's website ([www.cdpr.ca.gov/docs/gwp](http://www.cdpr.ca.gov/docs/gwp)).

"Engineered rights of way" are defined as areas within a ground water protection area (GWPA) that are constructed in a way that results in increased runoff and collection of storm water, such as railroad ballasts and berms, public roadsides, and highway median strips or similar areas, but not canal or ditch banks or utility lines.

## SPECIFIC GROUNDWATER PROTECTION PERMIT CONDITIONS ATTACHED

## GWP-C &amp; D Unlined canal and ditch banks

- 1 - Percolation rate is less than or equal to 0.2 inches per hour
- 2 - Applied six months prior to water run
- 3 - All applications are prohibited below high water line

## GWP-ROW Engineered rights-of-way within San Joaquin County GWPAs

- 1A - Soil disturbance within 7 days
- 1B - Incorporation
- 1C - Applied between April 1 and July 31
- 2 - Runoff passes through adjacent fully vegetated noncrop area
- 3 - Compliance with NPDES permit
- 4 - Runoff through adjacent area as overland flow

## GWP-R Runoff GWPAs within San Joaquin County

- 1 - Soil disturbance
- 2 - Incorporated
- 3 - Band treatment
- 4 - Applied between April 1 and July 31
- 5 - Runoff water held onsite
- 6 - Runoff water stored offsite
- 7 - Runoff to adjacent fallow field

## GWP-L Leaching GWPAs within San Joaquin County

- 1 - No irrigation
- 2 - Bed or berm application
- 3 - Managed irrigation

## GWP-Director Director Approved Alternative Management Practices or Interim Use

- 1 - Director approved alternative
- 2 - Director approved interim use

Revised 11/15

P General

CONDITION - P - General

In addition to all applicable laws, regulations, label restrictions and other more restrictive conditions of this permit, THE FOLLOWING CONDITIONS APPLY TO APPLICATIONS COVERED BY THIS PERMIT.

1. Maximum wind velocities for applications of Restricted Materials unless otherwise covered by the label, law, regulation, other permit conditions or environmental conditions at the application site are:
  - a. Spray - 12 m.p.h.
  - b. Dust - 8 m.p.h.
  - c. Pellets, granular or baits - 16 m.p.h.
2. No pesticide application shall be made or continued when there is the likelihood of contaminating any persons, non-target crops, animals or other public or private property.
3. Unless specifically named as a dust on this permit, NO DUST FORMULATIONS are allowed.
4. Apply pesticides covered by SLN(s) and Section 18(s) in conformance with the SLN(s) and Section 18(s).
5. A flagger is required at the application site for all AIR applications of Zinc Phosphide bait.

Revised 10/90

**Q Dicamba & Phenoxy Herbicide CV**  
CONDITION - Q - DICAMBA AND PHENOXY HERBICIDES - CENTRAL VALLEY/

---

In addition to all applicable laws, regulations and label restrictions, the CONDITIONS CHECKED BELOW APPLY to applications covered by this permit.

- 1. No ester formulation applications allowed.
- 2. Do not discharge material more than 10 feet above the crop or target.
- 3. A drift reducing agent shall be added to the spray mixture at label rates.
- 4. Maximum wind velocity for Phenoxy herbicides - 10 m.p.h.
- 5. Maximum wind velocity for Dicamba - 10 m.p.h. EXCEPT when wind is moving in direction of sensitive crops, the maximum wind velocity - 5 m.p.h.

Revised 11/15

**R Dicamba & Phenoxy Herbicide SA**  
CONDITION - R - DICAMBA AND PHENOXY HERBICIDES - SPECIAL HAZARDOUS AREA

---

In addition to all applicable laws, regulations, label restrictions, the and other conditions of this permit, the conditions listed below apply to applications in the Hazardous Area in San Joaquin County beginning March 16 and continuing through October 15.

1. A drift reducing agent shall be added to the spray mixture at the label rates.
2. No Phenoxy application shall be made when the wind velocity is less than 2 m.p.h. or in excess of 7 m.p.h.
3. No Dicamba applications allowed when wind exceeds 5 m.p.h.
4. No Dicamba application allowed when the maximum temperature on the day of application is predicted to exceed 85

BIAGI FARMS, GEORGE JR

Expires: 12/31/2016

degrees fahrenheit. Predicted temperature for the following day will be determined by the NOAA National Weather Service.

5. Air applications are prohibited, except as follows: KING ISLAND, EMPIRE TRACT, BISHOP TRACT, RIO BLANCO TRACT, BOULDIN ISLAND, STATEN ISLAND. Monitoring of application by a Commissioner's representative is required. Applicator shall inform the Agricultural Commissioner's Office of the specific time of application. Application shall not begin until the Commissioner's representative is on site, or approval has been received from the Commissioner's representative.

Revised 11/15

## **B RM Use Near Schools**

### **CONDITION B REST. MAT. USE NEAR SCHOOLS**

No applications of Restricted Materials shall be made by air or ground within 660 feet of a school in session or when a school sponsored event is in progress. If the pesticide label or regulation requires a larger buffer area, the larger buffer shall apply. There will be no waiver of the required 24 hour Notice of Intent.

These conditions do not apply to the following ground applications:

1. Vertebrate pest control
2. Back-pack applications
3. Equipment where all nozzles are pointing down AND wind direction is periodically measured as moving away from the school site
4. Other CAC approved methods

NOTE: The uses of soil fumigants and their corresponding buffer zones are covered by DPR suggested permit conditions or by label.

---

## **SITE CONDITIONS**

### **B RM Use Near Schools**

#### **CONDITION B REST. MAT. USE NEAR SCHOOLS**

No applications of Restricted Materials shall be made by air or ground within 660 feet of a school in session or when a school sponsored event is in progress. If the pesticide label or regulation requires a larger buffer area, the larger buffer shall apply. There will be no waiver of the required 24 hour Notice of Intent.

These conditions do not apply to the following ground applications:

1. Vertebrate pest control
2. Back-pack applications
3. Equipment where all nozzles are pointing down AND wind direction is periodically measured as moving away from the school site
4. Other CAC approved methods

NOTE: The uses of soil fumigants and their corresponding buffer zones are covered by DPR suggested permit conditions or by label.

### **P General**

#### **CONDITION - P - General**

---

In addition to all applicable laws, regulations, label restrictions and other more restrictive conditions of this permit, THE FOLLOWING CONDITIONS APPLY TO APPLICATIONS COVERED BY THIS PERMIT.

BIAGI FARMS, GEORGE JR

Expires: 12/31/2016

1. Maximum wind velocities for applications of Restricted Materials unless otherwise covered by the label, law, regulation, other permit conditions or environmental conditions at the application site are:

- a. Spray - 12 m.p.h.
- b. Dust - 8 m.p.h.
- c. Pellets, granular or baits - 16 m.p.h.

2. No pesticide application shall be made or continued when there is the likelihood of contaminating any persons, non-target crops, animals or other public or private property.

3. Unless specifically named as a dust on this permit, NO DUST FORMULATIONS are allowed.

4. Apply pesticides covered by SLN(s) and Section 18(s) in conformance with the SLN(s) and Section 18(s).

5. A flagger is required at the application site for all AIR applications of Zinc Phosphide bait.

Revised 10/90

**Q Dicamba & Phenoxy Herbicide CV**

CONDITION - Q - DICAMBA AND PHENOXY HERBICIDES - CENTRAL VALLEY/

In addition to all applicable laws, regulations and label restrictions, the CONDITIONS CHECKED BELOW APPLY to applications covered by this permit.

- 1. No ester formulation applications allowed.
- 2. Do not discharge material more than 10 feet above the crop or target.
- 3. A drift reducing agent shall be added to the spray mixture at label rates.
- 4. Maximum wind velocity for Phenoxy herbicides - 10 m.p.h.
- 5. Maximum wind velocity for Dicamba - 10 m.p.h. EXCEPT when wind is moving in direction of sensitive crops, the maximum wind velocity - 5 m.p.h.

Revised 11/15

**R Dicamba & Phenoxy Herbicide SA**

CONDITION - R - DICAMBA AND PHENOXY HERBICIDES - SPECIAL HAZARDOUS AREA

In addition to all applicable laws, regulations, label restrictions, the and other conditions of this permit, the conditions listed below apply to applications in the Hazardous Area in San Joaquin County beginning March 16 and continuing through October 15.

- 1. A drift reducing agent shall be added to the spray mixture at the label rates.
- 2. No Phenoxy application shall be made when the wind velocity is less than 2 m.p.h. or in excess of 7 m.p.h.
- 3. No Dicamba applications allowed when wind exceeds 5 m.p.h.
- 4. No Dicamba application allowed when the maximum temperature on the day of application is predicted to exceed 85 degrees fahrenheit. Predicted temperature for the following day will be determined by the NOAA National Weather Service.

**Certified Applicator:** BIAGI, GEORGE G  
8458 W EIGHT MILE RD  
STOCKTON, CA 95219

**Type of Use:**Agricultural Use

**Pesticide Possession:**Possession and Use

**Permit Duration:**Seasonal

*Employees Handle Pesticides*

**Permit Conditions:**A, P, Q, R, B, QL

Notices Of Intent required 24 hours prior to application of pesticide containing restricted materials

See condition detail for code descriptions.

**Regulatory Notes:**

I understand that this permit does not relieve me from liability for any damages to any persons or property caused by the use of these pesticides. I waive any claims of liability for damages against the County Department of Agriculture based on the issuance of this permit. I further understand that this permit may be revoked when pesticides are used in conflict with the manufacturer's labeling or in violation of applicable laws, regulations, and specific conditions of this permit. I authorize inspection at all reasonable times and whenever an emergency exists by the Department of Pesticide Regulation or the County Department of Agriculture of all areas treated or to be treated, storage facilities for pesticides or emptied containers and equipment used or to be used in the treatment. I have considered alternative and mitigation measures pursuant to Title 3, California Code of Regulations, section 6426. Taking into account economic, environmental, social, and technological factors, I have adopted those that are feasible and would substantially lessen any significant adverse impact on the environment.

## GROUNDWATER PROTECTION PERMIT CONDITIONS

These conditions apply to pesticides labeled for agricultural, outdoor industrial, or outdoor institutional use that contain chemicals listed in 3CCR section 6800(a): ATRAZINE, SIMAZINE, BROMACIL, DIURON (except products with less than 7% diuron applied to foliage), PROMETON, BENTAZON, AND NORFLURAZON. Ground Water Protection Areas (GWPA), for San Joaquin County, are designated in the Department of Pesticide Regulation document EH03-05. A list of GWPAs may be obtained from the Commissioner's Office or DPR's website ([www.cdpr.ca.gov/docs/gwp](http://www.cdpr.ca.gov/docs/gwp)).

"Engineered rights of way" are defined as areas within a ground water protection area (GWPA) that are constructed in a way that results in increased runoff and collection of storm water, such as railroad ballasts and berms, public roadsides, and highway median strips or similar areas, but not canal or ditch banks or utility lines.

## SPECIFIC GROUNDWATER PROTECTION PERMIT CONDITIONS ATTACHED

## GWP-C &amp; D Unlined canal and ditch banks

- 1 - Percolation rate is less than or equal to 0.2 inches per hour
- 2 - Applied six months prior to water run
- 3 - All applications are prohibited below high water line

## GWP-ROW Engineered rights-of-way within San Joaquin County GWPAs

- 1A - Soil disturbance within 7 days
- 1B - Incorporation
- 1C - Applied between April 1 and July 31
- 2 - Runoff passes through adjacent fully vegetated noncrop area
- 3 - Compliance with NPDES permit
- 4 - Runoff through adjacent area as overland flow

## GWP-R Runoff GWPAs within San Joaquin County

- 1 - Soil disturbance
- 2 - Incorporated
- 3 - Band treatment
- 4 - Applied between April 1 and July 31
- 5 - Runoff water held onsite
- 6 - Runoff water stored offsite
- 7 - Runoff to adjacent fallow field

## GWP-L Leaching GWPAs within San Joaquin County

- 1 - No irrigation
- 2 - Bed or berm application
- 3 - Managed irrigation

## GWP-Director Director Approved Alternative Management Practices or Interim Use

- 1 - Director approved alternative
- 2 - Director approved interim use

Revised 11/15

## P General

## CONDITION - P - General

In addition to all applicable laws, regulations, label restrictions and other more restrictive conditions of this permit, THE FOLLOWING CONDITIONS APPLY TO APPLICATIONS COVERED BY THIS PERMIT.

1. Maximum wind velocities for applications of Restricted Materials unless otherwise covered by the label, law, regulation, other permit conditions or environmental conditions at the application site are:

- a. Spray - 12 m.p.h.
- b. Dust - 8 m.p.h.
- c. Pellets, granular or baits - 16 m.p.h.

2. No pesticide application shall be made or continued when there is the likelihood of contaminating any persons, non-target crops, animals or other public or private property.
3. Unless specifically named as a dust on this permit, NO DUST FORMULATIONS are allowed.
4. Apply pesticides covered by SLN(s) and Section 18(s) in conformance with the SLN(s) and Section 18(s).
5. A flagger is required at the application site for all AIR applications of Zinc Phosphide bait.

Revised 10/90

**Q**                    **Dicamba & Phenoxy Herbicide CV**  
CONDITION - Q - DICAMBA AND PHENOXY HERBICIDES - CENTRAL  
VALLEY/

---

In addition to all applicable laws, regulations and label restrictions, the CONDITIONS CHECKED BELOW APPLY to applications covered by this permit.

- 1. No ester formulation applications allowed.
- 2. Do not discharge material more than 10 feet above the crop or target.
- 3. A drift reducing agent shall be added to the spray mixture at label rates.
- 4. Maximum wind velocity for Phenoxy herbicides - 10 m.p.h.
- 5. Maximum wind velocity for Dicamba - 10 m.p.h. EXCEPT when wind is moving in direction of sensitive crops, the maximum wind velocity - 5 m.p.h.

Revised 11/15

**R**                    **Dicamba & Phenoxy Herbicide SA**  
CONDITION - R - DICAMBA AND PHENOXY HERBICIDES - SPECIAL  
HAZARDOUS AREA

---

In addition to all applicable laws, regulations, label restrictions, the and other conditions of this permit, the conditions listed below apply to applications in the Hazardous Area in San Joaquin County beginning March 16 and continuing through October 15.

1. A drift reducing agent shall be added to the spray mixture at the label rates.
2. No Phenoxy application shall be made when the wind velocity is less than 2 m.p.h. or in excess of 7 m.p.h.
3. No Dicamba applications allowed when wind exceeds 5 m.p.h.
4. No Dicamba application allowed when the maximum temperature on the day of application is predicted to exceed 85 degrees fahrenheit. Predicted temperature for the following day will be determined by the NOAA National Weather Service.
5. Air applications are prohibited, except as follows: KING ISLAND, EMPIRE TRACT, BISHOP TRACT, RIO BLANCO TRACT, BOULDIN ISLAND, STATEN ISLAND. Monitoring of application by a Commissioner's representative is required. Applicator shall inform the Agricultural Commissioner's Office of the specific time of application. Application shall not begin until the Commissioner's representative is on site, or approval has been received from the Commissioner's representative.

Revised 11/15

**B**                    **RM Use Near Schools**

BIAGI FARMS, GEORGE JR

Expires: 12/31/2017

**CONDITION B REST. MAT. USE NEAR SCHOOLS**

No applications of Restricted Materials shall be made by air or ground within 1320 feet of a school in session or when a school sponsored event is in progress. If the pesticide label or regulation requires a larger buffer area, the larger buffer shall apply. There will be no waiver of the required 24 hour Notice of Intent.

These conditions do not apply to the following ground applications:

1. Vertebrate pest control
2. Back-pack applications
3. Equipment where all nozzles are pointing down AND wind direction is periodically measured as moving away from the school site
4. Other CAC approved methods

NOTE: The uses of soil fumigants and their corresponding buffer zones are covered by DPR suggested permit conditions or by label.

**QL Dicamba and Phenoxy**

CONDITION - QL - DICAMBA AND PHENOXY HERBICIDES - north Eight Mile Rd.

---

In addition to all applicable laws, regulations and label restrictions, the CONDITIONS CHECKED BELOW APPLY to applications covered by this permit.

- 1. No ester formulation applications allowed.
- 2. Do not discharge material more than 10 feet above the crop or target.
- 3. A drift reducing agent shall be added to the spray mixture at label rates.
- 4. Maximum wind velocity for Phenoxy herbicides - 10 m.p.h.
- 5. Maximum wind velocity for Dicamba - 10 m.p.h. EXCEPT when wind is moving in direction of sensitive crops, the maximum wind velocity - 5 m.p.h.
- 6. No Dicamba or Phenoxy herbicide applications allowed beginning March 16 and continuing through October 15, and until grape leaves in the vicinity of the treated area are "browned off".

Revised 11/15

**SITE CONDITIONS****B RM Use Near Schools****CONDITION B REST. MAT. USE NEAR SCHOOLS**

No applications of Restricted Materials shall be made by air or ground within 1320 feet of a school in session or when a school sponsored event is in progress. Notices Of Intent required 24 hours prior to application of pesticide containing restricted materials

See condition detail for code descriptions.

**Regulatory Notes:**

I understand that this permit does not relieve me from liability for any damages to any persons or property caused by the use of these pesticides. I waive any claims of liability for damages against the County Department of Agriculture based on the issuance of this permit. I further understand that this permit may be revoked when pesticides are used in conflict with the manufacturer's labeling or in violation of applicable laws, regulations, and specific conditions of this permit. I authorize inspection at all reasonable times and whenever an emergency exists by the Department of Pesticide Regulation or the County Department of Agriculture of all areas treated or to be treated, storage facilities for pesticides or emptied containers and equipment used or to be used in the treatment. I have considered alternative and mitigation measures pursuant to Title 3, California Code of Regulations, section 6426. Taking into account economic, environmental, social, and technological factors, I have adopted those that are feasible and would substantially lessen any significant adverse impact on the environment.

## GROUNDWATER PROTECTION PERMIT CONDITIONS

These conditions apply to pesticides labeled for agricultural, outdoor industrial, or outdoor institutional use that contain chemicals listed in 3CCR section 6800(a): ATRAZINE, SIMAZINE, BROMACIL, DIURON (except products with less than 7% diuron applied to foliage), PROMETON, BENTAZON, AND NORFLURAZON. Ground Water Protection Areas (GWPA), for San Joaquin County, are designated in the Department of Pesticide Regulation document EH03-05. A list of GWPAs may be obtained from the Commissioner's Office or DPR's website ([www.cdpr.ca.gov/docs/gwp](http://www.cdpr.ca.gov/docs/gwp)).

"Engineered rights of way" are defined as areas within a ground water protection area (GWPA) that are constructed in a way that results in increased runoff and collection of storm water, such as railroad ballasts and berms, public roadsides, and highway median strips or similar areas, but not canal or ditch banks or utility lines.

## SPECIFIC GROUNDWATER PROTECTION PERMIT CONDITIONS ATTACHED

## GWP-C &amp; D Unlined canal and ditch banks

- 1 - Percolation rate is less than or equal to 0.2 inches per hour
- 2 - Applied six months prior to water run
- 3 - All applications are prohibited below high water line

## GWP-ROW Engineered rights-of-way within San Joaquin County GWPAs

- 1A - Soil disturbance within 7 days
- 1B - Incorporation
- 1C - Applied between April 1 and July 31
- 2 - Runoff passes through adjacent fully vegetated noncrop area
- 3 - Compliance with NPDES permit
- 4 - Runoff through adjacent area as overland flow

## GWP-R Runoff GWPAs within San Joaquin County

- 1 - Soil disturbance
- 2 - Incorporated
- 3 - Band treatment
- 4 - Applied between April 1 and July 31
- 5 - Runoff water held onsite
- 6 - Runoff water stored offsite
- 7 - Runoff to adjacent fallow field

## GWP-L Leaching GWPAs within San Joaquin County

- 1 - No irrigation
- 2 - Bed or berm application
- 3 - Managed irrigation

## GWP-Director Director Approved Alternative Management Practices or Interim Use

- 1 - Director approved alternative
- 2 - Director approved interim use

Revised 11/15

**P General**

## CONDITION - P - General

In addition to all applicable laws, regulations, label restrictions and other more restrictive conditions of this permit, THE FOLLOWING CONDITIONS APPLY TO APPLICATIONS COVERED BY THIS PERMIT.

1. Maximum wind velocities for applications of Restricted Materials unless otherwise covered by the label, law, regulation, other permit conditions or environmental conditions at the application site are:

- a. Spray - 12 m.p.h.
- b. Dust - 8 m.p.h.
- c. Pellets, granular or baits - 16 m.p.h.

2. No pesticide application shall be made or continued when there is the likelihood of contaminating any persons, non-target crops, animals or other public or private property.
3. Unless specifically named as a dust on this permit, NO DUST FORMULATIONS are allowed.
4. Apply pesticides covered by SLN(s) and Section 18(s) in conformance with the SLN(s) and Section 18(s).
5. A flagger is required at the application site for all AIR applications of Zinc Phosphide bait.

Revised 10/90

**Q**                    **Dicamba & Phenoxy Herbicide CV**  
CONDITION - Q - DICAMBA AND PHENOXY HERBICIDES - CENTRAL VALLEY/

---

In addition to all applicable laws, regulations and label restrictions, the CONDITIONS CHECKED BELOW APPLY to applications covered by this permit.

- 1. No ester formulation applications allowed.
- 2. Do not discharge material more than 10 feet above the crop or target.
- 3. A drift reducing agent shall be added to the spray mixture at label rates.
- 4. Maximum wind velocity for Phenoxy herbicides - 10 m.p.h.
- 5. Maximum wind velocity for Dicamba - 10 m.p.h. EXCEPT when wind is moving in direction of sensitive crops, the maximum wind velocity - 5 m.p.h.

Revised 11/15

**R**                    **Dicamba & Phenoxy Herbicide SA**  
CONDITION - R - DICAMBA AND PHENOXY HERBICIDES - SPECIAL HAZARDOUS AREA

---

In addition to all applicable laws, regulations, label restrictions, the and other conditions of this permit, the conditions listed below apply to applications in the Hazardous Area in San Joaquin County beginning March 16 and continuing through October 15.

1. A drift reducing agent shall be added to the spray mixture at the label rates.
2. No Phenoxy application shall be made when the wind velocity is less than 2 m.p.h. or in excess of 7 m.p.h.
3. No Dicamba applications allowed when wind exceeds 5 m.p.h.
4. No Dicamba application allowed when the maximum temperature on the day of application is predicted to exceed 85 degrees fahrenheit. Predicted temperature for the following day will be determined by the NOAA National Weather Service.
5. Air applications are prohibited, except as follows: KING ISLAND, EMPIRE TRACT, BISHOP TRACT, RIO BLANCO TRACT, BOULDIN ISLAND, STATEN ISLAND. Monitoring of application by a Commissioner's representative is required. Applicator shall inform the Agricultural Commissioner's Office of the specific time of application. Application shall not begin until the Commissioner's representative is on site, or approval has been received from the Commissioner's representative.

Revised 11/15

**B**                    **Pesticide Use Near Schoolsites**

BIAGI FARMS, GEORGE JR

Expires: 12/31/2018

**CONDITION B Pesticide Use Near Schools/Day cares**

All pesticide applications for production of an agricultural commodity within 1/4 mile (1,320 feet) of a school or day care shall follow Title 3 California Code of Regulations sections 6690, 6691 and 6692. This includes applications of adjuvants and 25(b) pesticides.

Schools include: Public K-12 schools, including publicly-funded charter schools.

Daycares include: Licensed child day care facilities, except family day care homes, as defined by Health and Safety Code.

Application restrictions are in effect Monday-Friday, 6am-6pm, while school is in session.

**QL Dicamba and Phenoxy**

CONDITION - QL - DICAMBA AND PHENOXY HERBICIDES - north Eight Mile Rd.

---

In addition to all applicable laws, regulations and label restrictions, the CONDITIONS CHECKED BELOW APPLY to applications covered by this permit.

- 1. No ester formulation applications allowed.
- 2. Do not discharge material more than 10 feet above the crop or target.
- 3. A drift reducing agent shall be added to the spray mixture at label rates.
- 4. Maximum wind velocity for Phenoxy herbicides - 10 m.p.h.
- 5. Maximum wind velocity for Dicamba - 10 m.p.h. EXCEPT when wind is moving in direction of sensitive crops, the maximum wind velocity - 5 m.p.h.
- 6. No Dicamba or Phenoxy herbicide applications allowed beginning March 16 and continuing through October 15, and until grape leaves in the vicinity of the treated area are "browned off".
