Transportation Fees

Whenever as the cost of providing student transportation exceeds funding provided by the state, the Board of Education may find it necessary to charge fees for home-to-school student transportation **and other transportation services as expressly authorized by law.**

The Superintendent or designee shall annually submit **as needed** proposed transportation fee schedules for Board approval. Fees shall be determined on the basis of operating costs, in accordance with law.

The Board shall certify to the County Superintendent **of schools** that the district has levied fees in accordance with the law. The total amount received for transportation from the state and parent/guardian fees shall not exceed the actual operating cost of home-to-school transportation during the school year. **In the event that excess fees have been charged, the fees have been reduced and excess fee revenue eliminated.**

No charge shall be made for any transportation of students whose individualized education programs require transportation or whose parents/guardians are determined indigent pursuant to administrative regulations.
