2024-25 School Sites and Comprehensive Support & Improvement (CSI) and Additional Targeted Support and Improvement (ATSI) Plans

Dr. Sahli explained that the process began in December when school sites receive updated results from the California School Dashboard. Lodi USD staff, in collaboration with San Joaquin County Office of Education staff, reviewed the information with site principals. He stated that based on the Dashboard results, certain schools

were identified for Additional Targeted Support and Improvement (ATSI) or Comprehensive Support and Improvement (CSI) due to overall performance or the performance of specific student subgroups. Dr. Sahli commented that in the second phase, improvement plans were developed to address the needs identified in the data, including those for groups targeted for ATSI and that the Educational Services Department provided guidance and feedback throughout this phase.

No comments were received.

2024-25 School Plan for Student Achievement (SPSA)

2024-2025 The Arts and Music in Schools Funding (AMS) Plans - Proposition 28

Dr. Sahli explained that the measure requires the state to establish a new, ongoing program supporting arts education and instruction in TK-12 schools beginning in 2023-24. He commented one of the challenges with Prop. 28 is sites must expend at least 80% of the funds to personnel costs and 20% or remaining funds for training, supplies, curriculum, materials, and partnerships. Dr. Sahli explained that it is a statewide challenge finding art teachers. He stated that he requested a waiver from the California Department of Education for the 80% requirement that would free the schools up to use more than 20%.
